

## ABSTRACT OF THE DISCLOSURE

The invention relates to cerium compounds having general formulas (I)  $R_n^{l+} Y_i^{n-}$  and (II)  $R_b^+$   $Y_b^+$  and their application as medicaments in the prophylaxis and /or treatment of cancer diseases. In formula (I), R is a group of general formula (A):

5

and in formula (II), R<sub>b</sub> is a group of general formula (B)
